WITH A SPECIFICALLY DESIGNED COST EFFICIENT TOOL

Logflake monitors your system logs in real-time, identifying and alerting you to irregularities and threats with a single console. It documents them providing immediately actionable insights.

MAKES COMPLEXITY EASY

MONITORS UNLIMITED APPLICATIONS

WORKS IN REAL TIME

IS ACCESSIBLE FROM EVERYWHERE

SAVES YOUR TIME

TIMELY WARNS ABOUT PERFORMANCE ISSUES

CAN BE DEPLOYED BOTH SAAS AND ON PREMISES

WE CAN INSTALL AND SETUP IT FOR YOU

```
<!--  
high  
level  
overview  
-->
```

```
<!--  
focused  
on  
goals  
-->
```

Don't pay for features you do not need

LOGFLAKE IS
A SPECIALISED TOOL

FOCUSES ON
THE REAL OBJECTIVE
AND DOES IT VERY WELL

It's lightweight, fast and not scattered.
It doesn't require you to learn any
unnecessary feature, resulting in a smooth
and **quick learning curve.**

```
<!--  
new  
generation  
software  
-->
```

LogFlake is new technology fast and scalable

**Coded
from scratch
for**
maximum
flexibility

Zero effort integration

```
<!--  
easy  
to  
integrate  
-->
```

BUILDING A NEW PIECE OF SOFTWARE?

Leverage the easy free
LogFlake API

INSTALLING A SUPPORTED SOFTWARE?

Leverage the easy free
LogFlake API

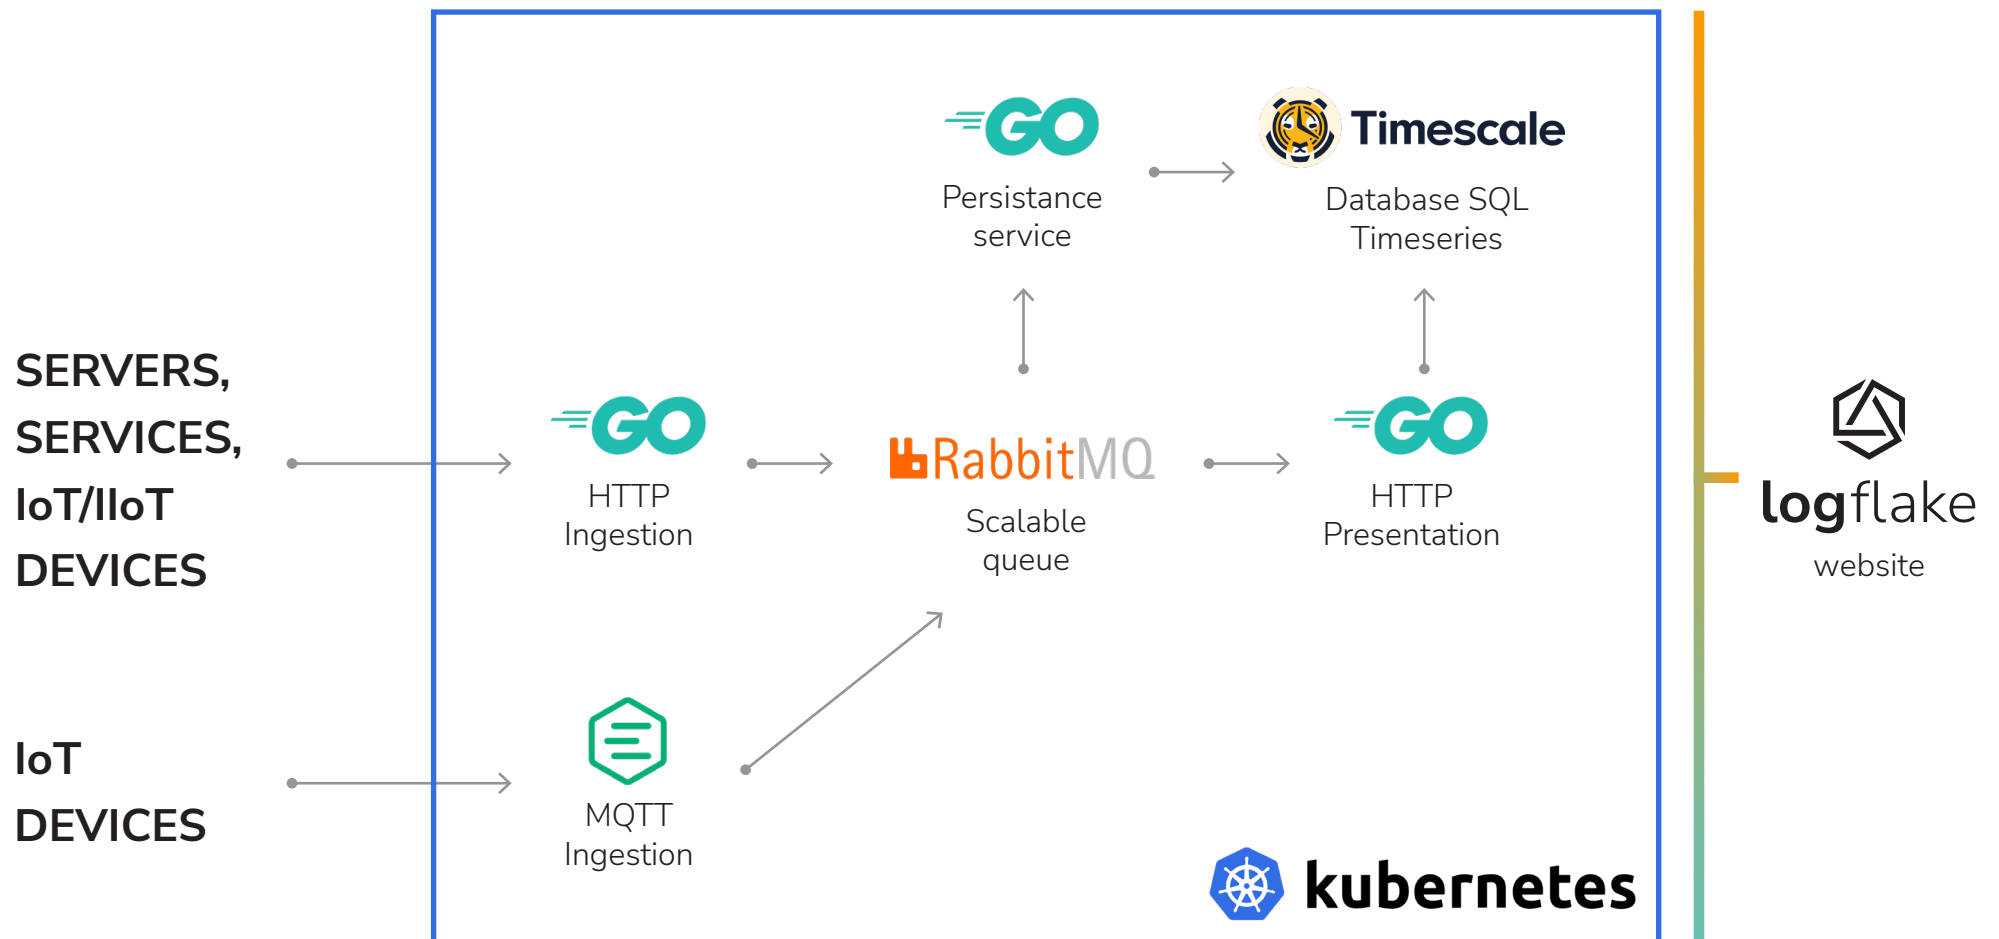

HAVE LEGACY TO MANAGE?

LogFlake autonomously
grabs and reads all of
your text logs

How does it work?

```
<!--  
fast  
scalable  
efficient  
-->
```

Code better, not more.

cloudphoenix

We are an all-italian IT company.
We are developers, consultants and trainers.
We are young, fast and passionate about our work.
We solve problems and create opportunities.
We develop and manage customized software solutions
for our customers.

`<-- Our guiding principle is: Code better, not more.-->`

LogFlake was born out of the needs of many
of our clients who required a tool like this
to monitor their applications:
fast, efficient, focused and cost-effective.
